PROFESSIONAL INKJET PHOTO RANGE

# CREATIVE EMULSION

ILFORD GALERIE Creative Emulsion is a water-based inkjet coating solution that has been designed to allow printers to create an inkjet print from any commercially-available, traditional art paper. The final look and feel of the print can be tailored by blending together Creative Emulsion Blend A with Creative Emulsion Blend B.

**1LTR**  
**Product code:** 2005058  
**Price** \$89.50 ex gst

## BLEND A

Key Benefits

- Create a unique look and feel to a print
- Great density and sharpness without affecting the texture of the paper
- Water-based coating solution which can be applied to a range of fine art papers
- Emulsion A can be blended with Emulsion B to create a bespoke look and feel
