Prepasted Non-Woven Design2Wall Sol 225 satin

PREMIUM PREPASTED NON-WOVEN WALLPAPER · SOLVENT & LATEX · 225 G/M²

Premium prepasted non-woven wallpaper with a satin finish, specifically designed for solvent & latex inks. The permanent water-based paste backcoating is activated by wetting with water — no additional adhesive or protection required.

APPLICATIONS

Easy-Hang Interior Wallpapers

The paste backcoating simplifies installation — just wet and hang, no additional paste needed.

Decorative & Artistic Designs

Satin finish enhances colour brilliance for vivid decorative wallpaper applications.

Commercial & Residential Interiors

High-quality wall coverings for offices, retail and residential spaces.

FEATURES

Prepasted Backcoating

Permanent water-based paste — activated by wetting, guaranteeing long-lasting adhesion.

Smooth Satin Finish

Outstanding colour brilliance and scratch resistance.

Water Resistant — No Lamination Required

Coating and prints are water resistant.

Pre & Post Paste Cutting

High dimensional stability and wet strength allow cutting before and after pasting.

High Opacity

Covers small cracks and surface imperfections — good wall coverage without extensive preparation.

Easy to Remove

Non-woven construction allows clean, damage-free removal from walls.

Dimensional Stability & Wet Strength

Maintains shape and integrity during application with standard non-woven wallpaper adhesive.

PVC-Free · FSC Certified

Environmentally responsible — no PVC, sourced from sustainably managed forests.
