

SIGN MASTER 1700 AG

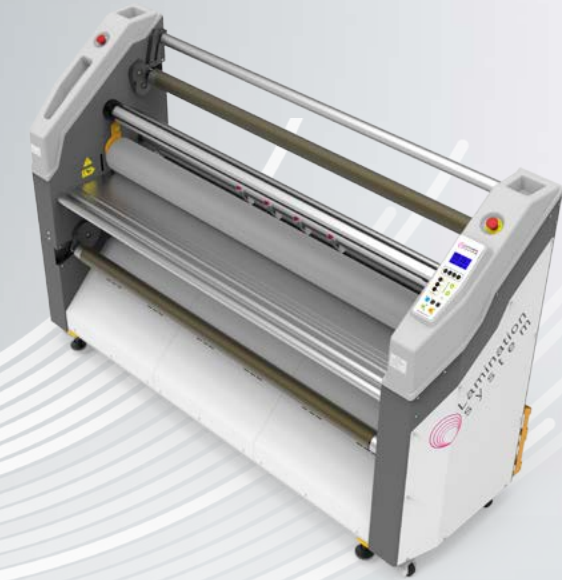

EXPLORE THE FOREFRONT OF LAMINATING TECHNOLOGY IN OUR FLAGSHIP LAMINATOR

20 years of building laminators has led us to the AVANT-GARDE, the best!

Featuring 190mm dia silicone roller, pneumatic roller control & pressure, pneumatic quick change swing out film mandrels for ease. Vacuum assisted feed table to aid in setup. Equipped with front & rear controls and double foot switch for simple operation.

NEW 1000w Servo Driven motor making this our most powerful laminator yet. Infrared heating to 125°C.

It just doesn't get any better than this!

SIGN EASY 1600 PRO S2

A COMPLETE REDESIGN HAS RAISED THE BAR FOR MID-SIZED LAMINATORS.

Now featuring larger 130mm silicone rollers with infrared heating to 125°C.

It has also gained fully adjustable pneumatic roller controls. Some big features have also come across from the SignMaster range including a rear control panel, auto stop, meter counter along with increased speed for a productivity win!

Laminating just became even easier!

SIGN EASY 1600 PLUS S2

FOLLOWING THE LINES OF THE SE PRO S2

This is an economical version which still impresses as the best featured machine in its class. It includes 125mm silicone rollers, pneumatic roller control, infrared heat assist to 60°C, quick change 1625mm mandrels with instant locking.

A lot of machine for your money.
